INTRODUCTION

07

STUDY AREA

09

METHODS

3.1 STUDY DESIGN	09
3.2 FIELD SURVEY	09
3.3 VEGETATION PROFILE OF THE AIRPORT	11
3.4 INSECT SURVEY	11
3.5 SPATIAL ASSESSMENT AND ANALYSIS	12

CONTENTS

13

RESULTS

4.1 OVERVIEW	13
4.2 BIRD COMMUNITY INSIDE THE AIRFIELD	13
4.3 VEGETATION PROFILE OF THE AIRFIELD	19
4.4 INSECT SURVEY	21
4.5 BIRDS OUTSIDE AIRFIELD	22
4.6 LANDUSE AND LANDCOVER AROUND 10KM RADIUS OF THE AIRFIELD	32
4.7 ECOLOGICAL AND ANTHROPOGENIC ACTIVITIES AROUND THE AIRFIELD	37

39

BIRD STRIKES

41

POTENTIAL PROBLEMATIC BIRDS

49

EXISTING BIRD HAZARD MANAGEMENT PRACTICES IN THE AIRFIELD

7.1 BIRD CHASERS	49
7.2 HABITAT MANAGEMENT	50
7.3 PYRO TECHNIQUES & ACOUSTIC DEVICES	52
7.4 VISUAL DETERRENTS	53
7.5 BIRD CATCHING AND RELOCATION	54
7.6 MONITORING BIRD ACTIVITIES AROUND THE AIRFIELD	55
7.7 AWARENESS CAMPAIGN	56

CONTENTS

57

OBSERVATIONS

8.1 OBSERVATIONS FROM INSIDE THE AIRFIELD	57
8.2 BIRD MOVEMENT	57
8.3 PERCHING AND NESTING	58
8.4 MAMMAL COMMUNITY	59
8.5 REPTILES	59
8.6 OTHER FAUNA	60
8.7 HABITAT MANAGEMENT	61
8.8 WATER STAGNATION SITES	62
8.9 WATER CANALS AND DRAINAGES	63
8.10 RUNWAY	64
8.11 PERIMETER WALL	64
8.12 BIRD MONITORING AND STRIKE REPORTING	64

65

BIRD ATTRACTIONS OUTSIDE THE AIRPORT

9.1 BIRD FEEDING	65
9.2 AGRICULTURAL LAND	65
9.3 TOWNSHIP	66
9.4 WASTE DUMPS	66

67

RECOMMENDATIONS

10.1 INSIDE AIRFIELD	67
10.2 OUTSIDE THE AIRFIELD	69

Table 3 Avian diversity indices calculated for the different zones of the airport	31
Table 4 The different classes of LULC with calculated area and percentage.	32

ACKNOWLEDGEMENTS

We are pleased to submit this final report, prepared by the Salim Ali Centre for Ornithology and Natural History, (SACON), by the agreement and requirements set forth by Jaipur International Airport Limited (JIAL). We also thank the Director, SACON, for his constant encouragement and support since the inception of the project. It is with deep appreciation that we acknowledge the contribution of everyone who has cooperated with us in this study period. JIAL's commitment to enhancing bird hazard management has been instrumentally added to this report via our study.

We acknowledge Vishnu Mohan Jha, the Airport Director of Jaipur International Airport, for extending all support for conducting the study. We also thank the ATC managers, the Apron Control Team, and the wildlife hazard management team for their full cooperation and assistance during the survey.

We would also like to express our sincere thanks to Mr. Hardeep Singh, In Charge of airside Operations, for providing necessary logistical support throughout the study period. Special thanks to the WHM coordinator, Mr Lokesh Yadav, Supervisors Mr Goutam Dhala and Mr Ravindra Singh Rathore and all the members of the bird-scaring team for their assistance in data collection. We thank CISF officials for issuing permits to carry out the work inside the airfield.

We thank the research coordinator, administration & finance department, and library division of SACON for providing necessary and timely support during the project tenure.
